

Partner for **WOMEN** in Software Testing

Registered Apprenticeship Program by Vijay Computer Academy

It is crucial to ensure that your company's software is reliable, and fit for purpose for everyday use. **Software testing apprentices** will be equipped to build and test high-quality code across multiple platforms and layers, preserving the robust nature and integrity of the software.

Now is the right time to **nurture the female talent pipeline of software testing professionals!**

Vijay Computer Academy invites employer partners to provide on-job training to software tester women apprentices:

- businesses, corporations,
- apprenticeship intermediaries,
- international organizations,
- community based organizations
- nonprofits,
- UN organizations,
- global foundations,
- workforce agencies.

Partner Benefits

- ✓ Build diverse workforce of female talent pipeline.
- ✓ Bridge the digital gender divide at the grassroots.
- ✓ Receive reimbursement of wages paid and state tax credit.
- ✓ Be recognized as a champion of digital gender equality and promotor of diversity and inclusion.
- ✓ Amplify your sustainability goals and social impact.
