VIJAY COMPUTER ACADEMY

Since 1990, **Vijay Computer Academy (VCA)** is a minority & woman owned global institute dedicated to providing world-class IT education and training to:

- individuals (from ages 9 to 90),
- small & medium scale businesses, corporations,
- nonprofits, community based organizations,
- workforce and government agencies,
- financial institutions &
- higher education institutes.

Our global IT academy offers career and workforce development, corporate and community empowerment through live instructor led IT certification & bootcamp courses across the globe.

We have trained over **32,000 individuals** (with **60% female students**) and **9,000 business professionals** across the globe.

VCA is a **Registered IT Apprenticeship provider** under DOL and **Eligible Training Provider** in the state of Texas. We are a one-of-a-kind institute pioneering in **bridging the skills gap** and **digital gender divide** by offering globally recognised IT education and training programs with a **social mission to transform and empower lives creating a more sustainable world**.

ABOUT FOUNDER

Shefali Kapoor Patel is an iconic leader in the IT education industry. She is a **founder and signature force** behind VCA in India and USA.

As a serial social entrepreneur, Shefali is a global transformational change leader, a champion for digital gender equality, a role model to girls & women in ICT, an advocate for creating the opportunities and access in ICT and an innovator in the IT industry. In recognition of her work, Shefali has recently received:

- **Women Who Mean Business Award by the Houston Business Journal** in 2019
- **Outstanding Diversity Champion by Houston Business Journal** in 2022

Fostering the upcoming generation of IT experts

With more than 3 decades of expertise and experience in TECH industry, we stand as **champions for bridging the gap between education and the digital future of work.** Our commitment to the **school-to-work transition** is unwavering, as we believe that **hands-on career training** is the cornerstone of success and alternative to a college degree.

We proudly offer comprehensive programs catering to **Workforce Innovation and Opportunity Act (WIOA) youth**, providing them with the IT skills necessary to thrive in the ever-evolving tech landscape.

Personalized career counseling is at the heart of our mission, guiding individuals towards **vocational IT careers** and the exciting world of **New Collar IT Jobs**. We understand that **alternative pathways**, often more accessible and efficient than traditional college degrees, are the stepping stones to a **prosperous digital future**.

➔ Reskilling and Upskilling Through Digital Skills

In today's rapidly evolving educational landscape, it is imperative for educational institutions to keep their **staff members, educators, supervisors, counselors, librarians, IT staff, coordinators, administrators, principals and parents** up-to-date with the **latest digital skills**.

To address this need, **Vijay Computer Academy** is proud to offer a comprehensive suite of **IT reskilling and upskilling bootcamps and courses** tailored specifically for this target audience. Among our diverse digital course offerings, one standout program is our **Data Analytics Bootcamp**. Whether it's optimizing curriculum development, improving student performance analysis, or enhancing administrative efficiency, our customized Data Analytics Bootcamp empowers educators to leverage data-driven insights effectively.

We also offer **customized IT training** based on your institution's and member's IT skills needs.

Data Analytics in Education

➔ Career and Technical Education & P-TECH

We take pride in offering **instructor-led educational solutions**, making us the ideal **Career and Technical Education (CTE)** Partner and **P-TECH** Partner for educational institutions and students alike. With a diverse range of IT bootcamps and courses designed to bridge the gap between classroom learning and real-world industry demands, we empower students with the practical digital skills needed for successful careers in the technology sector.

Career and Technical Education

We collaborate with educational institutions to integrate our IT courses seamlessly into their curriculum, ensuring that **students receive the highest quality IT training** and are **prepared for the challenges of the modern job market**.

P-TECH

We go **beyond the traditional educational model**, offering mentorship and workplace experiences to students, fostering a deeper understanding of their chosen field. Join us in shaping the future of education to **pave the way for high paying IT careers**.
