

TRANSFORM YOUR WORKFORCE & COMMUNITY WITH **VIJAY COMPUTER ACADEMY!**

Vijay Computer Academy (VCA) is a globally recognized institute specializing in IT education and training. We provide high demand IT bootcamps, IT Apprenticeship programs and IT certificate programs, from foundational to advanced levels, designed to support career advancement and workforce development. All our programs are delivered **online through live, instructor-led training**, ensuring a personalized and interactive learning experience.

Since its **establishment in 1990**, VCA has been a pioneer in addressing the skills and gender gaps in the IT sector through its world-class education and training programs. To date, we have successfully trained over 33,750 individuals, with 60% of them being women, and are **committed to empowering 100,000 learners by 2030**.

We are a proud **Registered IT Apprenticeship Sponsor and an Apprenticeship Ambassador** under the U.S. Department of Labor (DOL). Additionally, we are an approved **Eligible Training Provider** in the states of *Texas, Oregon, Utah, Virginia, Washington, South Carolina and North Carolina*, underscoring our commitment to delivering high-quality, workforce-aligned IT education and training. We **continue to broaden the reach** of our programs across the USA.

Our Partners

VCA has built an **ecosystem with different stakeholder**. We offer different services and partnership opportunities to:

- **Businesses**, Organizations and Chambers of Commerce
- **Nonprofits**, Community & Faith Based Organizations

Partnership Benefits

We are eager to partner with your organization to **support your workforce development initiatives** by:

- **Reskilling & Upskilling** - access quality IT training programs that reskill and upskill your team, members, community or clients with in demand tech skills.
- **Hiring IT Skilled Graduates** - our alumni network consists of job-ready graduates who have completed rigorous training and are prepared to contribute effectively from day one.
- **On The Job Training (OJT) Partnership** - become our OJT partner to hire our **apprentices**. OJT partners receive numerous benefits from the workforce and government agencies including wage reimbursement, tax credit and many more.
- Achieve your **diversity, inclusion, equity** and **sustainability goals**.
- Digital skills empowerment **projects for youth** and **women**.

[Learn More](#)

How to fund the IT training programs for your workforce:

Businesses and nonprofits can take advantage of Skills Development Fund Grant (Texas) or other grants like Customized Training Fund to reskill and upskill their workforce. In addition, we offer group discounts

➤ Registered IT Apprenticeships

This is a **front loaded apprenticeship model**. All our apprentices will be fully trained with basic to advanced IT skills through **related technical instruction (RTI)** before starting **paid on-the-job training (OJT)**. Our OJT is competency based.

- Data Analyst (Database Technician)
- Cybersecurity Support Technician
- Software Application Developer (Tester)

Your clients or community members may apply for **WIOA scholarship** to cover the tuition of our IT apprenticeship programs (conditions apply).
