Level 1

AI Foundations for Everyone

30 hours | Build Essential AI Skills for the Modern Workplace

Designed for beginners and professionals, this program helps you confidently use AI and tools like ChatGPT, Microsoft Copilot, and Google Gemini to improve productivity and decision-making.

Program Modules

- Introduction to AI
- ChatGPT for Workplace Productivity
- Microsoft Copilot Essentials
- Google Gemini for Work
- Prompt Engineering for Everyone
- AI Workplace Automation
- Responsible AI & Ethics

Level 2

APPLY NOW

AI Agents & Business Automation Bootcamp

60 hours | Go Beyond Using AI—Learn to Build with AI

Discover how to create intelligent AI agents, chatbots, and automated workflows that streamline business operations and improve efficiency.

Program Modules

- AI Foundations & Future of Work
- AI Productivity Tools
- Prompt Engineering Masterclass
- Introduction to Chatbots
- No-Code Chatbot Development
- AI-Powered Workflows & Automation
- AI Agents & Agentic Workflows
- Knowledge Bases & RAG Systems
- Multimodal AI (Images, Voice, Video)
- Responsible AI & Ethics
- Capstone Project & Career Portfolio

WHY CHOOSE VCA?

- ✓ Industry-recognized, job-ready training with AI integrated
- ✓ Live instructor-led online classes
- ✓ Hands-on projects & real-world labs
- ✓ Career support & interview preparation
- ✓ Flexible schedules. Learn from anywhere

YOUR PATH. YOUR FUTURE.

- ✓ Choose the right pathway for your goals
- ✓ Learn from industry experts
- ✓ Earn globally recognized certificates
- ✓ Build job-ready skills with AI

**START TODAY.
LEAD TOMORROW.**

FOR INDIVIDUALS & BUSINESSES

Advance your career
with in-demand AI skills.

Upskill your team.
Drive innovation.
Stay ahead.

B2B Training | Corporate Programs
Custom Learning Solutions

Specialized Tracks for Professionals

Designed for individuals who already possess domain knowledge or professional experience in Data Analytics, Database Administration or Cybersecurity. Participants should be comfortable with basic AI concepts and tools before enrolling in these advanced specialization pathways. If you are new to AI or do not yet have foundational AI knowledge, we recommend starting with our AI for Everyone course (Level 1).

AI FOR DATA SPECIALIST (60 hours)

Transform Data into AI-Powered Business Intelligence

LEVEL 3

AI SPECIALIST TRACKS (CHOOSE YOUR PATH)

AI SPECIALIST IN DATA

90 Hours

- Data Analytics & Visualization
- SQL for Data Analysis
- Machine Learning Basics
- AI with Python (Foundations)
- Predictive Analytics
- Power BI & AI Integration
- Data-Driven Decision Making

CAREER ROLES

- Data Analyst
- AI Data Specialist
- Business Intelligence Analyst
- Junior Data Scientist

AI SPECIALIST IN CYBERSECURITY

90 Hours

- Cybersecurity Fundamentals
- Network Security Basics
- Security Tools & Monitoring
- Threat Detection with AI
- Incident Response
- Ethical Hacking Essentials
- AI for Cyber Defense

CAREER ROLES

- Cybersecurity Analyst
- SOC Analyst
- Security Operations Analyst
- AI Security Specialist

AI SPECIALIST IN DATABASE ADMINISTRATION

90 Hours

- Database Fundamentals
- SQL & Advanced Queries
- Database Design & Modeling
- Performance Tuning
- Database Security
- Cloud Databases
- AI for Database Management

CAREER ROLES

- Database Administrator
- SQL Developer
- Data Engineer (Junior)
- AI Database Specialist

LEVEL 2

AI AGENTS & AUTOMATION BOOTCAMP (60 HOURS)

AI Foundations & Tools

Prompt Engineering Masterclass

No-Code Chatbot Development

AI Agents & Agentic Workflows

Workflow Automation (Zapier, Make, Power Automate)

RAG & Knowledge Bases

Multimodal AI (Image, Video, Voice)

Capstone Projects & Portfolio

YOU WILL BUILD

- AI Customer Support Chatbot
- HR Helpdesk Assistant
- Sales Lead Qualification Bot
- AI Knowledge Base Assistant
- AI Resume & Career Coach

- AI Support Specialist
- Chatbot Operations Specialist
- AI Automation Coordinator
- Digital Workflow Assistant
